Avery Labels Template For Mac

I possess a brand-new iMac, OSX leopard and would like to generate simple avery deal with labels for return deal with and posting deal with, but for the daily life of me can't discover where to structure labels in Webpages. Now, I humbly place away my unbiased pride and feel wondering for Assia!!!! Alright, I sense like such a Macintosh noob as I possess been significantly stubbornly looking how to do this for about 2 days away from and about.
